Spring...

## Paper & Pop-up theater

A big animated book that unveils its story as we turn its pages. Settings and flaps pop-up and vanish with an array of engaging sound effects and music.

Hop! Hop!

An enchanting journey through what the different seasons have to offer, accompanied by numerous endearing forest creatures. Knock, knock, who's there, hiding behind the page?

Summer ...

A crafted pop-up paper show based upon classic children's literature on seasons, such as the 'wide-mouthed frog' and 'the mitten'.

An imaginative and poetic theatrical performance that will enthuse and surprise children and adults of all ages alike.
